

**DIGI *SPORTING***

**A new step towards digital transformation through sports science**

## **Digi-Sporting Framework**

Digi-Sporting has come to an end and all its tools and resources are available to the entire sports community. Through its website, you can download all the materials and access all the web resources and tools:

- IO1. Guidelines digital transformation in sport
- IO2. Curriculum of technologist-analyst in sport
- IO3. Self-diagnostic tool
- IO4. Quality Seal

**Check the outputs here!**

## **What is DIGI-SPORTING about?**

It is a fact that does not require further explanation that digital transformation is affecting quickly and deeply all areas of society and economy and, in this sense, the worlds of education and sports are not apart of this reality.

Currently, there is a wide range of technologies and equipment aimed at improving and optimizing the development of sports activities and training, both in high competition (professional level) and in grassroots sports. However, the way in which sport academies and clubs apply these advances at the European level is very varied and erratic.

Therefore, Digi-Sporting is a strategic partnership, with a marked educational character, designed to

support sports organizations that want to give further steps towards digital transformation, by providing them with a new specialized and cross-cutting professional profile that currently does not exist at a European level, as well as giving them keys and guidelines to implement a change in the management model through the use of new technologies.

Start: 01-09-2019 – End: 30-06-2022

Project Reference: 2019-1-ES01-KA203-06550
